

Producttypes Mono couplings

Schematic representation of the basic product types in the 'mono-couplings' product range. The series and types available from WALTHER-PRÄZISION may differ from this both visually and technically.

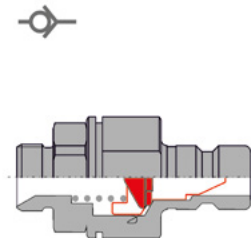

Warning: Different series / types and different materials must not be coupled together or must only be coupled under specific advice, since this can otherwise lead to property damage and personal injury with fatal consequences.

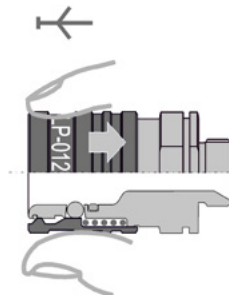

Self-sealing coupling
= coupling with valve

Thru-type adaptor
= adaptor without valve

Self-sealing adaptor
= adaptor with valve

Thru-type coupling
= coupling without valve
